

OUR SUSTAINABILITY POLICY

TEKGRAFİK Sustainability Policy directs our basic approach towards our corporate values, basic working principles and ethical understanding and our priority issues of harmonizing our performance in economic, environmental and social areas with global goals. Our main goal is to sustain our contribution to the United Nations Sustainable Development Goals with all our stakeholders through our sustainability priorities that we manage in line with our policy. The main focuses of our Sustainability Policy are as follows;

- To ensure effective and efficient use of resources,
- To make investments in new technologies to increase renewable energy capacity and efficiency,
- To develop solutions for energy efficiency and create the necessary infrastructure,
- To support the use of renewable energy sources in our energy consumption,
- To ensure efficient use of water resources and to develop and support projects that will raise awareness on this issue,
- To comply with the Net Zero Emission and Net Zero Waste targets,
- To ensure that public health is taken into consideration by evaluating the environmental and social impacts of our activities,
- To realize our sustainability approach through responsible supply chain practices and to add value to our suppliers.
